PROFESSIONAL SUMMARY

QA Analyst with experience in manual and automated testing for modern web applications, including Cypress, Playwright, Jest, and Mocha. Skilled in bug reproduction, Jira-based defect tracking, UI and workflow validation, and cross-functional collaboration with developers and non-technical teams to deliver reliable, high-quality software.

CORE SKILLS

- Manual Testing
- Automated Testing
- Regression Testing
- Functional Testing
- UI Testing
- Responsive Testing
- Cross-Browser Testing
- End-to-End Testing
- Unit Testing
- Test Automation
- Defect Tracking
- Bug Reproduction
- Bug Documentation
- Bug Escalation
- Test Case Design
- Test Execution
- Test Documentation
- API Validation
- Frontend-Backend Collaboration
- React
- Node.js
- JavaScript
- TypeScript
- Cypress
- Playwright
- Jest
- Mocha
- Selenium
- Python
- Git/GitHub
- Agile Collaboration

PROFESSIONAL EXPERIENCE

Broadridge Financial Solutions Toronto, ON

Quality Assurance Analyst 2021 - 2026

- Collaborated with frontend developers to validate UI/UX implementations, application behavior, and API integrations across software workflows.
- Reproduced, documented, and communicated software issues to support effective troubleshooting and resolution.
- Performed manual testing on user-facing functionality, responsive interfaces, and end-to-end workflow behavior.
- Supported QA efforts relevant to automated testing practices in modern JavaScript application environments.
- Helped identify usability issues and functional inconsistencies between frontend interactions and backend responses.
- Contributed to cross-functional quality efforts by supporting clear communication around defects, expected behavior, and release readiness.

- Used QA analysis and structured validation to improve issue visibility and strengthen overall software reliability.

Lodestone Software Services (Tech Mahindra) Ahmedabad, India

Senior Quality Assurance Analyst 2018 - 2019

- Led testing activities for enterprise applications with emphasis on functional coverage, defect prevention, and product reliability.
- Designed and executed rigorous test cases that reduced defect leakage by 35%.
- Investigated edge cases and real-world failure scenarios to uncover software weaknesses before release.
- Documented issues clearly and worked with technical teams to support resolution and improve product quality.
- Strengthened QA outcomes through disciplined validation, defect tracking, and attention to detail in complex workflows.

TECHNICAL ALIGNMENT

- Hands-on experience with Cypress, Playwright, Jest, and Mocha for test automation and modern JavaScript testing workflows.
- Familiar with software environments involving React, Node.js, JavaScript, TypeScript, and responsive web applications.
- Exposure to API integrations, debugging, and frontend-backend workflow validation through QA and development-related work.
- Experience using Selenium and Python as part of QA skill development.
- Comfortable collaborating with technical and non-technical stakeholders to explain bugs, clarify expected behavior, and support issue triage.

EDUCATION

Conestoga College Kitchener, ON

Graduate Certificate in Enterprise Content Management Dec 2020

Gujarat Technological University Gujarat, India

Bachelor of Computer Science and Engineering May 2016

CERTIFICATIONS

Selenium Python - Udemy Mar 2021
